TAP SENSOR CONTROLS—CHROME

"No touch" hygienic sensor operation

Simply put your hand within 50mm of the sensor to turn water on. Turns water off automatically after use You can choose your own tap spout or one of ours. Sensor is fitted remotely.

TPTS model chrome Tap Sensor kits

Mains-powered water pressure 0.5 Bar – 6 Bar

TPTS-M/HP/1 Tap Sensor kit

1 no. Mains-powered tap control box 1 no. 15mm Plastic 12V solenoid valve 1 no. Sensor c/w 38mm chrome bezel

TPTS-M/HP/2 Tap Sensor kit

1 no. Mains-powered tap control box 2 no. 15mm Plastic 12V solenoid valve 2 no. Sensor c/w 38mm chrome bezel

Battery-powered

water pressure 0.75 Bar – 10 Bar

TPTS-B/HP/1 Tap Sensor kit

1 no. Battery-powered tap control box 1 no. 15mm G202 6V solenoid valve 1 no. Sensor c/w 38mm chrome bezel

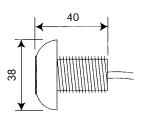

TPTS-B/HP/2 Tap Sensor kit

1 no. Battery-powered tap control box 2 no. 15mm G202 6V solenoid valve 2 no. Sensor c/w 38mm chrome bezel

Also available with optional 50mm chrome bezel

Sensor

Ensure no bright lights (or reflected lights) are shining directly into sensor. If fitting sensor through a thick (e.g. brick) wall, we can supply extension threads. Standard pre-wired sensor c/w 3m cable. Longer cable lengths available. *Call to discuss*.

STANDARD 38mm SENSOR

Bezel diameter Ø 38mm

Overall length 40mm

Thread length ABS Plastic

Pre-wired YES

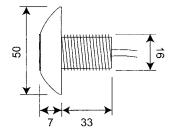

Cable length 3m standard

Finishes RAL Matt Black 3

Chrome

Brushed Steel

Insert colour N/A

OPTIONAL 50mm SENSOR

Bezel diameter Ø 50mm
Overall length 40mm
Thread length 33mm
Thread material ABS Plastic
Pre-wired YES
Cable length 3m standard
Finishes Chrome
Brushed Steel
Insert colour N/A

For order codes add /50 eg TPTS-M/HP/50/1 Tap Sensor kit

Typical installation: **This could be your own spout** (or choose one of ours)

TPTS model chrome tap sensor pictured with our chrome panel mounted spout

TAP SENSOR CONTROL KITS—TECHNICAL

Anti-Ligature & Vandal Resistant: Ideal for custodial/mental health/public & commercial applications.

Optional Purge Facility: Available on both mains- and battery-powered kits, "Purge Facility" allows you to set the tap to come on automatically if it has not been normally operated for more than a 24 hour period (to help prevent dead legs).

Optional Lock-Out Facility: Available on mains-powered kits only, "Lock-Out Facility" ensures the tap will stop working if it has been operated more than 4 times in 15 minutes (will automatically re-set itself after 15 minutes).

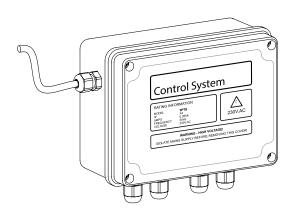

You can also set the system so you can activate the sensor once to turn the water on and then activate the sensor again to override the pre-set time and turn the water off immediately. It is possible to use 1 No. sensor to control 2 No. solenoid valves using a single control box.

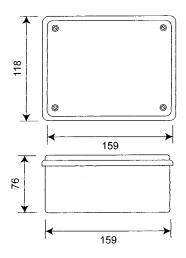

If you require a longer sensing range (e.g. set to the length of the tap spout) or would like the sensor mounted directly below the tap spout you can choose our brushed stainless steel Programmable Tap Sensors with plain, blue or red inserts (to denote water temperature).

Control Box

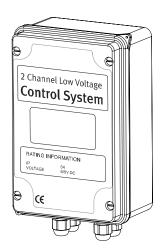

Standard tap control box with adjustable valve open time from 6 seconds to 20 seconds. *Call to discuss* for options if you require a longer valve open time.

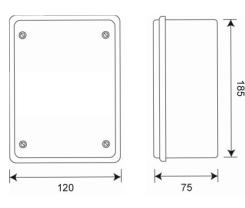

Mains powered: You need to provide a 3 amp fused spur.

Battery powered

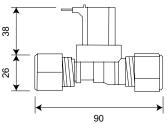

WRAS approved Solenoid Valves

Please specify correct solenoid valves for your site conditions: for low pressure solenoid valves replace "HP" with "LP" in order codes. Very low pressure solenoid valves are only available for battery powered kits. Replace "HP" with "VLP" in order codes.

For mains powered kits Standard high pressure (HP) 0.5 Bar – 6 Bar

12v nylon pre-wired 15mm solenoid valve for mains powered kits.

Working Temperature Range 0°C to 60°C Electrical connection: Spade connectors / 2-core Ø0.5mm copper cable

ORDER CODE 15mm 12v Plastic HP Valve

TECHNICAL DATA

Gross weight	0.215 kg
Material	Nylon
Seal Material	NBR (Nitrile)
Voltage	12vDC
Power	3W
Connection	15mm compression
Pressure rating	0.5 Bar – 6 Bar
Operation type	Normally closed
Cable length	3m

For mains powered kits Optional low pressure (LP) 0 Bar – 0.5 Bar maximum

12v (7.1mm orifice) solenoid valve for mains powered kits.

You will need to provide length of 2 core cable from valve to control box.

ORDER CODE 15mm 12v (7.1mm) Valve

TECHNICAL DATA

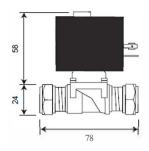

Material	ABS/Brass
O-ring/washers	Nitrile
Pressure rating	0 Bar – 0.5 Bar max.
Orifice	7.1mm
Connection	15mm compression
Voltage	12vDC
Operation type	Normally closed

For battery powered kits Standard high pressure (HP)

0.75 Bar - 10 Bar

6v non-wired G202 solenoid valve for battery powered kits.

You will need to provide length of 2 core cable from valve to control box.

ORDER CODE 15mm 6v G202 Valve

TECHNICAL DATA

Material	ABS/Brass
O-ring/washers	Nitrile
Pressure rating	0.75 Bar – 10 Bar
Orifice	12.7mm
Connection	15mm compression
Voltage	6vDC
Operation type	Latching

For battery powered kits Optional low pressure (LP)

0 Bar – 1.5 Bar maximum

6v (4mm orifice) solenoid valve for battery powered kits.

You will need to provide length of 2 core cable from valve to control box.

ORDER CODE

15mm 6v (4mm) Valve

TECHNICAL DATA

Material	ABS/Brass
O-ring/washers	Nitrile
Pressure rating	0 Bar – 1.5 Bar max
Orifice	4mm
Connection	15mm compression
Voltage	6vDC
Operation type	Latching

For battery powered kits

Optional very low pressure (VLP) 0 Bar – 0.5 Bar maximum

6v (6.7mm orifice) solenoid valve for battery powered kits.

You will need to provide length of 2 core cable from valve to control box.

ORDER CODE

15mm 6v (6.7mm) Valve

TECHNICAL DATA

Material	ABS/Brass
O-ring/washers	Nitrile
Pressure rating	0 Bar – 0.5 Bar max.
Orifice	6.7mm
Connection	15mm compression
Voltage	6vDC
Operation type	Latching
